

Noam's Mastering Console

Analog Mastering Chain

Noam's Mastering Console is a faithful plugin recreation of the 1-of-1 tube mastering desk built exclusively for Safari HQ. Combining analog circuitry and modern flexibility, it's your complete final-stage processor - now in the box.

[INSTALLATION](#)[REGISTRATION](#)[FEATURES](#)[TROUBLESHOOTING](#)

SETUP

Installation

WINDOWS

- 1 Open the **.exe** installer.
- 2 Accept the license agreement.
- 3 Choose your plugin formats (VST3, AAX and/or Standalone).
- 4 Click **Next** → **Install**.

MAC

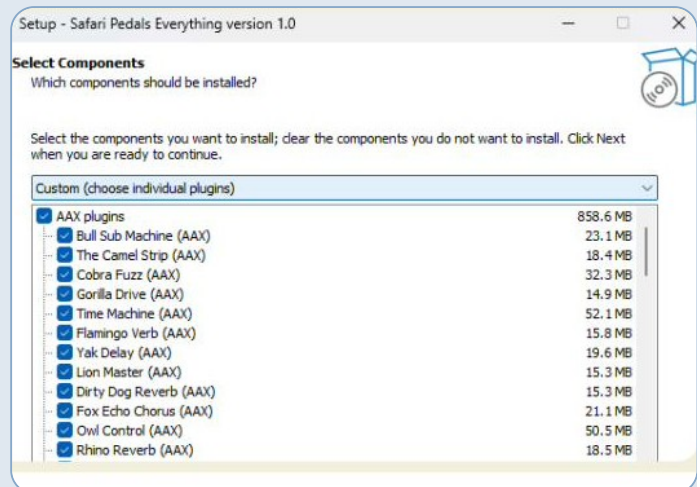

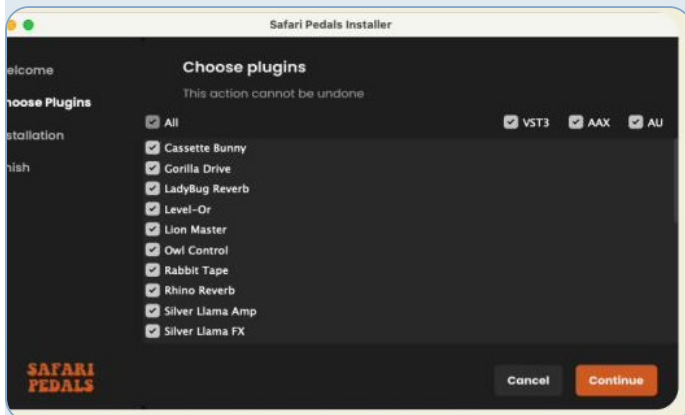

- 1 Open the **.pkg** installer.
- 2 Accept the license agreement.

3

Choose your plugin formats (VST3, AU, AAX and/or Standalone).

4

Click **Continue**, enter your password and install.

ACTIVATION

Registration

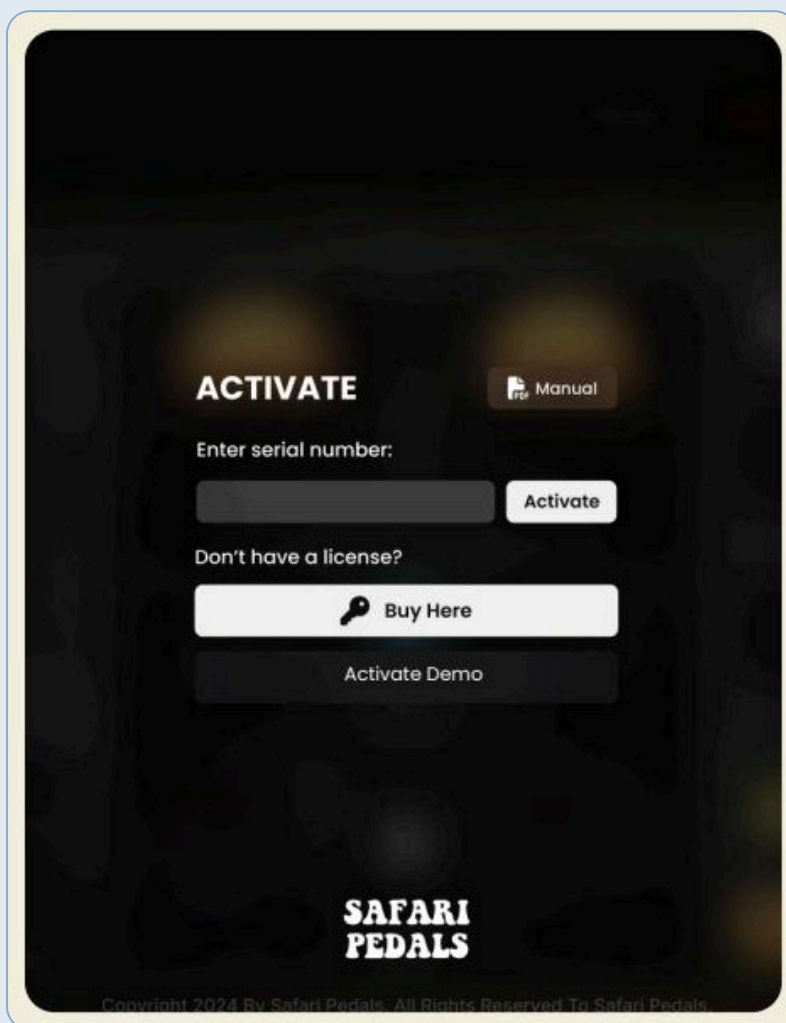

When you open the plugin for the first time you will see the registration screen.

Subscription

Includes all current and future plugins. Any new plugin you download activates without additional authorization.

Perpetual License

Lifetime access to the plugins you purchased.
Does not include future plugin releases.

OFFLINE USE

An internet connection is required only for the first activation. After that the plugin works offline.

START A TRIAL OR REGISTER

Click **Activate Demo** for a free 14-day trial. If you have a license key, enter it and click **Activate**.

ACTIVATE

CONTROLS

Features

TUBE SATURATION

SATURATION FILTER	Allowing you to warm up specific ranges while keeping others clean.
SATURATION	Controls the intensity of the tube-style saturation.
MIX	Blends between the dry (clean) and saturated signals for just the right amount of warmth.
LEVEL	Sets the output level after the saturation and filtering stages.
High/Low Cut Filters	Precise, steep filters to remove unwanted low-end rumble and smooth out harsh highs.
Input Gain	Set your level before and after the magic.
BAX EQ	Smooth and musical shelf EQ with gentle curves at 40Hz and 12kHz, ideal for sweetening lows and highs.
MS Matrix	Sculpt the mid and side image independently for wide, open masters.

DE-ESSER

On/Off	Toggle the de-esser processing.
Amount	Set the intensity of sibilance reduction.
Frequency	Select the target frequency range for de-essing.
Clipper	Push your mix louder with controlled clipping and auto gain options.
Output	Adjust the final output level after all processing.

On/Off

Quickly toggle the plugin processing on or off.

Auto Gain

Automatically compensates output level changes caused by processing.

Over-Sampling

Reduces aliasing for cleaner, more accurate audio at high frequencies.

Blend

Mix between the dry and processed signals.

Meters

Select the metering mode: Input level or Output level, to best match your workflow.

Troubleshooting

If something isn't working as expected, most issues are quick to resolve.

- 1 Re-read the Setup section - something may have been missed during installation or activation.
- 2 Double-check your DAW settings, plugin folder paths, and system compatibility.
- 3 Restart your DAW and try loading the plugin again.
- 4 Make sure your OS and DAW are up to date.

Still stuck? Email Bar@safaripedals.com with your OS, DAW version, and a description of the issue.
